

In *Four Card Poker* Bad Beat Bonus, you receive five cards to make your best four-card poker hand, and the dealer receives six cards to make his best four-card poker hand. By adding the Bad Beat Bonus bet, you have two ways to win if you are involved in a Bad Beat with the dealer. The first is by losing with two pair or better, and the second is by beating the dealer's hand of two pair or better.

### Ranking of Hands

four-of-a-kind, straight flush, three-of-a-kind, flush, straight, two pair and pair.

### Player vs. Dealer

Bet on the required ante spot to play against the dealer's hand as well as the optional Bad Beat Bonus bet. The best four-card hand wins. And the player wins ties. If you bet on the ante wager and want to stay in the game after viewing your cards, you must make a play wager. The play wager has to be at least equal to the ante but may be up to three times the ante. It's your four-card poker hand against the dealer's four-card poker hand, and the best hand wins! The ante and play bets pay even money.

### Automatic Bonuses

The top three hands in the game (four-of-a-kind, straight flush and three-of-a-kind) receive an automatic bonus payout on the ante bet. See table for odds. Automatic bonuses are paid even if the dealer has a better four-card hand.

### Aces Up®

Bet on the *Aces Up* spot and win when you're dealt a pair of aces or better. The *Aces Up* bonus is always paid even if the dealer has a better hand.
